HERE'S A BIG JOB.

Over Half Dressed White Elephant Still With Us.

Total Amount in Sight Over Twenty Thousand Dollars.

ONLY ONE DAY MORE.

Saturday Task Is a Stupendous One.

Forty-Five Thousand the Mark Aimed At.

Over half of that terrible White Elephant remains to be carved between now and Saturday night at 12 o'clock. Today 167 pledges were reported which represented \$2,631.50, making a total to date of 1,233 pledges and \$20,536.10. Of the grand total the business men have contributed \$18,585, the students \$6,000.10, and the young men, \$5,344.50.

"What's the matter with the young men?" was the question asked by one of the women today. Possibly the answer is understood that they will put forth an extra effort between now and midnight Saturday to take second place in the ranking of the divisions.

The team of E. Rankin, of the young men's section, has forged ahead until E. L. Copeland, business men's division, is second. The team of E. Rankin, young men's section, \$1,556.50; E. L. Copeland, business men's division, \$1,475; George S. Badders, business men's section, \$1,350; J. P. Davis, business men's section, \$923; A. A. Godard, business men's section, \$885; W. J. Rickenbach, business men's division, \$875; Mrs. W. S. Lindsay, women's section, \$858.95.

"I hope you will get out in force this afternoon, and that by tomorrow night at 12 o'clock the white elephant will have disappeared," said Senator Charles Curtis in the course of a five-minute talk at the noon hour today.

"If it does not entirely disappear by that time, I hope that you will start another campaign and keep it going until it does disappear. I hope that the Christian associations will never have another disturbing white elephant."

"I'm going to make a little report for committee No. 13. It is a bad number, and I'm sorry it isn't more. I had to report, but I can promise you \$100." This report was received with wild enthusiasm.

At 1:30 o'clock the "second table" was laid with high school workers, who will be on the job this afternoon and tomorrow, about 350 strong. Washburn college will furnish a few workers, but Dean W. B. Arthur has been disappointed in not being able to find more campaigners from the college.

A gift of \$500 was announced this noon from Mrs. George P. Moorehouse and one of \$300 from the Charles Wolff Packing company.

ICE COMPANY WINS.

Damage Suit Against Topeka Concern Fails.

Complying with instructions from the court, the jury in the \$10,000 damage suit against the Kaw Valley Ice and Cold Storage company of Kansas City, Kan., today returned a verdict for the defendant.

Thomas J. Seward and wife, Isabella Seward, brought suit for the killing of their son, Dennis Seward, last May, when he was helping the engineer in the Kansas City plant. At the completion of the plaintiff's testimony, the attorneys for the defendant company demurred to the evidence as showing negligence on the part of the company. Judge Dana ruled that the company was not liable, as the evidence showed the engineer to be blame.

Dennis Seward was told to operate a lever of a heavy fly wheel which threw the balance of the engine. Without having told the youth how to work the lever and without cautioning him, Engineer Jerome Schlegle turned on the steam. The fly wheel jerked back and the lever struck Seward a fatal blow. Seward properly would have been brought under fellow servant liability and against the engineer.

EXCITED ABOUT JOINTIST.

Grinstead Says Though He Was Convicted Can't Get Him Into Jail.

Judge V. B. Grinstead, of Liberal, has returned to his home after coming to Topeka to seek assistance from the attorney general regarding F. F. Murphy, of Seward county, who twice has been convicted of violation of the probibitory law but has not been jailed, though twice sentenced and efforts made to enforce the sentence.

Charges that politics are responsible for the situation were made by Judge Grinstead, who declared that the clerk

refuses to issue the commitment until after election. He also charged that the clerk was acting under instructions from the judge of the district court which sounds like a campaign story. The decision of the lower court in Murphy's case has been affirmed by the supreme court.

John Marshall, assistant attorney general, offered to bring mandamus proceedings against the clerk to compel issuance of the commitment, but after a conference it was decided not to do this.

NORTH SIDE NEWS.

New Santa Fe Junction Depot Will Be Built.

Modern Structure, Fireproof, of Brick and Cement.

AFTER MISSION STYLE.

Located at Sardou-Gordon
Street Crossing.

Civic Club Agitation Partly Re- sponsible for Improvement.

A new Santa Fe Junction depot will be built on the North side in the near future. It will be just north of the Gordon street and Sardou avenue crossing, about a block west of the old depot. The new structure will be fire proof, constructed of brick with cement floors and tiled roof, after the mission style of architecture. It is to be modern in every respect.

Plans for the North side new depot are being prepared at the Topeka general offices. The old depot will be removed. It was erected in 1870 just after the Santa Fe entered Topeka, and has been going to rack and ruin for several years. It was difficult to heat in winter. There were no modern conveniences whatever. These things have been mentioned several times in the State Journal within the last year and a committee from the Civic club some time ago petitioned the Santa Fe officials for a new building. The club was satisfied that an enterprising railroad system like the Santa Fe would not tolerate an old rack like the old shack commonly called "the junk," when the facts were brought to the company's attention.

A new one was getting to be a necessity. The old depot is located so that it obstructs the view of trainmen coming into Topeka from the east. The custom has been for trains to stop a little east of the depot while a flag man run ahead and saw that the tracks Union Pacific and Rock Island tracks run parallel with the depot. Several years ago two engines collided opposite the depot and one of them plowed up the platform.

The new location is well chosen. An electric arc light nearby will throw plenty of light on the platform. The location of the depot is in a place rather dark at night.

The section tool house will be removed to make room for the new building. It is said that it will likely be built on this section.

Hugh Kullback, lumberman and contractor, built the old depot. It was erected 30 feet further southeast than intended on account of the stakes marking the site having been accidentally misplaced.

Clarin Zumwalt, detective for the State Penitentiary, will speak at Central Avenue Christian church tonight at a temperance rally which will be held under the auspices of the Young People's societies of the North side churches. Other talks and special music will also be given.

Charming Hair

Every Woman Can Have It By
Using Parisian Sage Guar-
anteed by Stansfield

There is a reason for the phenomenal sale of Parisian Sage in the United States since it was first introduced into America, and the sales this year are breaking all records.

And the reason is plain to all: Parisian Sage does just as advertised.

Ask Geo. W. Stansfield about it. He will tell you that he rigidly guarantees it to cure dandruff, stop falling hair or itching scalp in two weeks, or money back.

But one thing that has made Parisian Sage so famous is its peculiar power to turn the harsh, unattractive hair that many women possess into luxuriant and radiant hair in a short time. Women of refinement the country over are using it and it never disappoints.

Sold by leading druggists everywhere and in Topeka by Geo. W. Stansfield, 625 Kansas avenue, for 50 cents a large bottle. The girl with Auburn hair is on every package.

Parisian Sage is a hair dressing of purest ingredients, and is guaranteed to cure dandruff, stop falling hair or itching scalp in two weeks, or money back.
